

About ServerEdge

Serveredge was founded in 2009 to Design, Manufacture, Deliver & Support a world-class, reliable, premium performance end-to-end data & communications infrastructure solution at an affordable cost to the end user.

Today, we manufacture over 2200+ products across our 2 factories by over 300 workers working on our production lines.

Operations in Oceania are supported by 2 warehouses across Melbourne & Brisbane.

Our Mission

“To Create Exceptional, Effective, Efficient infrastructure solution - designed, manufactured, supported and delivered – without compromise.
