

About Sharkrack

SharkRack is a leading Global Manufacturer of Data Products with sales and distribution facilities throughout the world and large stock holding with warehouses in Sydney, Melbourne, and Brisbane, with a dedicated salesperson in South Australia.

Our robust product portfolio includes a broad array of solutions ranging from data racks & cabinets and network cabling & connectivity to cable management and power & cooling solutions. In addition to our standard products and accessories, SharkRack will go the extra mile to design, engineer, and manufacture custom solutions.

SharkRack is a true manufacturer and all products are manufactured by our own overseas and domestic facilities. We have the capacity to manufacturer up to 500 + full size racks per day and over 1.5 million metres of network cabling per day in our factories.

We supply high quality products at very competitive prices with prompt delivery to meet the needs of our customers. This has proven successful for Sharkrack in the healthcare, education, financial, transport, data centre, industrial, commercial, and government sectors.
